

DESCRIPTION

The PFTE 7120 motorized trolley for LED and LCD is specially designed to safely mount LED walls and LCD displays of 98-inch and larger. The maximum weight load is 225 kg.

Formidable design

The PFTE 7120 motorized trolley for LED and LCD is supplied as standard with castors and adjustable legs. If the trolley is going to be used in a fixed position, mounting the supplied feet is the most attractive and practical solution. The installation is elegant and stylish, despite its size, so it enhances any modern setting. The high-quality materials and beautiful finish give the trolley an upmarket appearance, and as you would expect from a Vogels product, all the cables are neatly concealed in the housing.

Mounting the displays

The motorized trolley features a universal or custom interface which is suitable for any type of LED wall or large LCD display, irrespective of the brand. Vogels supplies complete matching interface kits for popular LED displays from Philips, Samsung, LG and Optoma.

Install your LED wall quickly and easily. Choose precision with ease for a seamless end result. A solution that suits you and your customers perfectly and can be placed in any environment. An attractive design with a single system for different applications, simple maintenance, and offering both durability and versatility. Vogels. For Sure.
