

DACOMEX Telephone Switch for 2 Headsets with Mute Buttons

DESCRIPTION

The RJ-9 Dacomex switch is the indispensable tool for professional phone calls. You can connect a traditional telephone set and a headset with microphone on the same telephone line. Each output is equipped with a Mute button so that you can disable the microphone on the telephone set or on the headset.

- 25-cm cord with RJ-9 male plug
- Switching unit with 2 x RJ-9 female ports
- 2 Mute buttons
