

DESCRIPTION

The ArenaMatch AMUBRKT U-bracket allows for versatile mounting of a single ArenaMatch loudspeaker with full 360° rotation to accommodate any installed pitch angle. The structural rigidity of the bracket allows either two-point attachment to flat surfaces such as walls or ceilings, or single-point attachment via the center mounting hole to secondary support structures such as third-party lighting-pole mounting kits. Bose ArenaMatch array rigging accessories are designed for use with ArenaMatch DeltaQ Array loudspeakers (AM10, AM20, and AM40) only. All accessory kits are shipped in pairs and includes all required fasteners.

TECHNICAL CHARACTERISTICS

Brand : BOSE

Part number : 806720-0110

Depth : 375 mm

Manual : Y

Material : Metal

Product colour : Black

Screws included : Y

Weight : 8.8 kg

Width : 815 mm
