

DESCRIPTION

Always in the perfect position

The 2 pivot points enable you to work in a perfectly ergonomic way at all times. Setting the ideal screen position is easy, even after mounting the monitor arm. As part of MOMO Motion, the monitor arm has a special clamp construction. A flexible mechanism that allows you to position the monitor at the correct height after installation. Even more space for ergonomic work is created since the monitor is now not on the desk.

A monitor arm that is quick and easy to install

The MOMO 2127 is installed using just one hex key, which is cleverly concealed in the product. So you'll always have the right tool at hand. The desk clamp is designed so that you can install it in 2 different ways: clamped to the desk or fixed onto the desk. So the desk clamp fits on almost any desk.

It also has a desk thickness indicator so that the desk clamp can be adjusted to the correct width. This allows you to fully pre-set all desk clamps for a large installation. And another advantage: you can mount the desk clamp from above. There's no need for complicated systems under the desk. Installing the MOMO 2127 is quick and easy!

This monitor arm complies with the strictest international safety requirements

Safety first. The MOMO 2127 meets TÜV, FIRA and IGR standards and is therefore extremely safe.

The rotation stop in the lower arms also prevents cable breakage and damage to screens and walls.

Easily tuck all cables away inside your monitor arm

The cable slots hidden in the arms provide enough room for several thick cables. The cables remain perfectly in place with the stainless steel clips. The workplace always looks neat and tidy with the MOMO monitor mounts.

All in all, the MOMO 2127 increases your comfort at work and creates a healthier and more productive working environment. MOMO, the monitor mount that works everywhere.

Vogels. For Sure.

TECHNICAL CHARACTERISTICS

Brand : VOGEL'S

Part number : 7121271

Design :

Certification : TÜV

Adjustable depth : Yes

Easy to install : Yes

Height adjustment : Yes

Maximum screen size : 109.2 cm (43»)

Maximum weight capacity : 20 kg

Minimum screen size : 25.4 cm (10»)

Mounting hole range : 50 - 100 mm

Mounting type : Desk

Number of arms : 1

Number of displays supported : 1

Number of pivot points : 2

Panel mounting interface : 50 x 50,75 x 75,100 x 100

Product colour : White

Rotating : Yes

Screws included : Yes

Sustainability certificates : CE

Tilt adjustment : Yes

Tilt angle range : -20 - 105°

Turn angle : 180°
