

# BOSCH SFP-25

## DESCRIPTION

## TECHNICAL CHARACTERISTICS

|                                              |  |
|----------------------------------------------|--|
| Brand : BOSCH                                |  |
| Part number : SFP-25                         |  |
| Depth : 13.5 mm                              |  |
| Fiber optic connector : SC                   |  |
| Height : 8.5 mm                              |  |
| Interface type : SFP                         |  |
| Maximum data transfer rate : 100 Mbit/s      |  |
| Maximum operating temperature : 50 °C        |  |
| Maximum transfer distance : 2000 m           |  |
| Mean time between failures (MTBF) : 100000 h |  |
| Minimum operating temperature : -40 °C       |  |
| Networking standards : IEEE 802.3            |  |
| Number of products included : 1 pc(s)        |  |
| SFP transceiver type : Fiber optic           |  |
| Weight : 230 g                               |  |
| Width : 63.8 mm                              |  |
