

FITTINGS ALL METAL PUSH-IN FITTINGS

Specification

Applicable Fluid Type	Air (no other type of gas or liquid)
Working Pressure Range	0.8 – 8 Bar
Negative Pressure	-29.5in Hg / -750mmHg (-750Torr)
Working Temperature Range	14°F – 140°F / -10°C – +60°C (depending on tubing specification)

Product Features

1. One-touch push-to-connect configuration allows an instant tubing connection
2. All fittings are useful for piping in confined spaces, given its six-angle wrench processing inside
3. Material:
Body and collet: nickel plated brass
O-ring: NBR
Threads: BSPT, BSPP and Metric
Tube to connect: Pu, PE, Nylon 6-11-12
Fluid: compressed air
4. Nickel-plated brass body ensures anti-contamination properties for an extended product life
5. Immediate sleeve disconnection by pressing the sleeve and then simply removing the tube from the fitting
