

Mould Protective

Technical Data

1. General description

MOULD PROTECTIVE has been specially formulated for application to mould surfaces after their use to remove any surface moisture and to protect the mould against corrosion during storage.

2. Features

- Does not contain silicones.
- Temporary conservation of metal parts during storage.
- Protects metals and alloys.
- Displaces and seals out water and moisture.
- Safe on all metal surfaces, does not stain.
- Safe on most rubbers, plastics and coatings. Test on sensitive or stressed materials before use.
- Easily moulded off.

3. Applications

- All injection mould tools, blow mould tools, extrusion dies and metal components requiring corrosion protection.

4. Directions

- Shake well before use.
- Stir or mix bulk products well before use.
- Repeat frequently during the application.
- Use only with adequate ventilation.
- Apply to a clean, dry surface.
- Clean the aerosol valve by turning the can upside down and spraying until only propellant escapes.
- **A safety data sheet (MSDS) according to EC Regulation N° 1907/2006 Art.31 and amendments is available for all CRC products.**

5. Typical product data (without propellant)

Color	Yellow.
Odor	Solvent.
Density	0.740 (@ 20°C).
Flash Point	- 4 °C
salt spray resistance active product	100 h
Drying time active product	cont. film: 10 min
Water separability (ASTM D 1401)	NaCl displaced

6. Packaging

Aerosol	12x400 ML	Ref. : 31545
Bulk	200 L	Ref. : 31691

PART NUMBER:
6120005000

All statements in this publication are based on service experience and/or laboratory testing. Because of the wide variety of equipment, conditions of use and the unpredictable human factors involved, we recommend that our products are tested on-the-job prior to use. All information is given in good faith but without warranty neither expressed nor implied. This Technical Data Sheet may already have been revised as a result of a change in legislation, availability of components or newly acquired experiences.
