

Flow Metering & Monitoring

Dataflow Inline Flow Indication

Temperature Range:
+5°C to +80°C Oil
+5°C to +60°C Water

Max Working Pressure:
10 bar Oil/Water

- Indicator gives flow visibility.
- Works in any plane.
- Accepts reverse flow.
- Indicates flow from 2-150 l/min.

Construction:

Borosilicate glass tube.
Body-Glass filled nylon.
Washers and shaft-Stainless Steel.

Nitrile seals.
Rotor and locator-Acetal.
Rotor Tips-Stainless Steel.

Minimum Flow:

Indication:
2 l/min (max 150 l/min).
Accepts reverse flow.

Accuracy:
±2% of point reading typical.

Repeatability:
±1 l/min.

Connections:
1" BSPP.

Weight: 0.4kg.

Note dataflow is designed for use with liquids only.

Indicator

DFI900
