

Flow sensors SFAB

FESTO

Key features

At a glance

- | | |
|---|--|
| [1] Quick and secure installation thanks to QS fitting | [4] Central electrical connection via an M12 plug |
| [2] Display can be rotated 270° | [5] Panel mounting of the sensor using retaining screws |
| [3] – High-contrast LCD display with blue background and white 9-segment display
– Bar chart depicts current measured value
– Switching point-dependent colour change | 5 measuring ranges from 0.1 ... 10 l/min to 10 ... 100 l/min |
| | [6] Manifold mounting of the sensor with H-rail or individually with adapter plate for wall mounting |

Impressive, straightforward, reliable

The flow sensors, featuring an attractive display and control concept, are very impressive when it comes to:

- Leakage detection in production
- Leak testing of end products
- Flow monitoring in parts feeding

The sensor provides:

- Absolute flow rate information
 - with threshold values and
 - convenient switching point adjustment via a display
- Cumulative air consumption measurement
- Patented – adjustable consumption-based switching pulse for cumulative air consumption measurement via the switching output

Flexible installation

This is made possible by the extremely compact design that dispenses with an upstream laminar flow inlet and outlet – the SFAB has an integrated flow steadying channel.

Systematically more reliable

The sensor can provide precise information even when flow conditions are fluctuating and unreliable thanks to the very large measuring range.

Easy to operate

- A large, illuminated LCD display increases the operational safety and makes the currently displayed flow rate or consumption values easy to read.
- Measured values outside the measuring range are visualised: flow rates are shown flashing.
- Values that fall below or exceed the threshold values can also be identified from a distance or if the sensor is in an inaccessible location by the display changing colour.
- Simple checking of the current sensor settings in SHOW mode
- Simple switching between consumption and flow rate indication

Convenient

- Clear and fast menu navigation
- Integrated QS fittings
- Fast teach-in
- Rotatable display
- Secure connections with extremely short assembly times
- Manual consumption measurement with start/stop and reset functionality

Advantages

For the designer

- Owing to the high dynamic response of the measurement and large measuring range, a rough estimate of the system air consumption is sufficient to configure the sensor
- Festo plug and work solution
- The same device can be used for different applications
- The sensor covers a large measuring range with a specified accuracy thanks to its high dynamic response of 1:100
- NPN/PNP can be switched via the software
- Minimal assembly times
- Alternatively with 4 ... 20 mA or 0 ... 10 V analogue output
- Flexible installation without restrictions caused by laminar flow inlets, any mounting position
- Large choice of pneumatic connections is provided by the modular system
- Construction of more powerful machines

For the machine operator

- Precise information is available even with fluctuating pressure conditions
- Flow values can be read easily and reliably
- Visualisation of deviations (colour change, flashing value)
- Easy operation, no need for training
- Greater system reliability
- Values shown on the display:
 - can be shown for flow and consumption for different standard conditions
 - can be filtered/averaged independently of the analogue output in the case of high dynamic response of the measurement
- Fast commissioning thanks to easy-to-use, intuitive teach-in function

Peripherals overview

Accessories	Brief description	→ Page/Internet
[1] Adapter plate SDE1-...-W-...	Included in the scope of delivery with SFAB-...-W...	11
[2] Mounting rail	To DIN EN 60715	nrh
[3] Connecting cable NEBU-M12G5	Straight socket	11
[4] Connecting cable NEBU-M12W5	Angled socket	11

Type codes

001	Series	
SFAB	Flow sensor	

002	Flow measuring range	
10	Max. 10 l/min	
50	Max. 50 l/min	
200	Max. 200 l/min	
600	Max. 600 l/min	
1000	Max. 1000 l/min	

003	Flow rate input	
U	Unidirectional	

004	Type of mounting	
H	H-rail mounting	
W	Wall mounting	

005	Pneumatic connection	
Q6	Push-in connector 6 mm	
Q8	Push-in connector 8 mm	
Q10	Push-in connector 10 mm	
Q12	Push-in connector 12 mm	
T14	Push-in connector 1/4"	
T38	Push-in connector 3/8"	
T516	Push-in connector 5/16"	

006	Electrical output 1	
2SA	2x PNP or NPN, 1 analogue output 4 ... 20 mA	
2SV	2x PNP or NPN, 1 analogue output 0 ... 10 V	

007	Electrical connection	
M12	Plug M12, A-coded	

008	Connecting cable, M8, straight socket	
	None	
2.5S	2.5 m	
5S	5 m	

009	Connecting cable, M8, angled plug socket	
	None	
2.5A	2.5 m	
5A	5 m	

010	EU certification	
	None	
EX2	II 3GD	

Additional variants can be ordered using the modular product system → 10

- Pneumatic connection
- Electrical accessories
- EU certification (ATEX)

Data sheet

Function

Current output 2SA

Voltage output 2SV

- Analogue output 0 ... 10 V, adjustable switching outputs 2x PNP or 2x NPN
- Analogue output 4 ... 20 mA, adjustable switching outputs 2x PNP or 2x NPN
- Freely selectable pulse output for consumption measurement
- Analogue filter for setting the rise time
- Digital filter for smoothing the display values
