SAFETY AND CARE ADVICE

- Check you have all the components and tools listed.
- Remove all fittings from the plastic bags and separate them into their groups.

- Make sure you have enough space to layout the parts before starting.
- Assemble the item as close to its final position (in the same room) as possible.
- Do not overtighten the nuts to avoid causing damage to the threads.
- Only clean using a damp cloth and mild detergent, do no use bleach or abrasive cleaners.
- From time to time check that there are no loose screws on this unit
