# Single rocker for blinds mechanism with 3 positions (up, down and stop) champagne Simon 82

REF. **82033-34**

## BASIC INFORMATION

### DESCRIPTION

This individual Rocker for blind mechanism with 3 positions (up, down and stop) is part of the Simon 82 range of products. It measures 55 x 55 millimetres, and built-in the engraving of the three positions, which makes it easy to operate and operation to be highly user-friendly and interactive for the user. Its installation is very simple, because the product is suitable both cone for installation in surface-mounted and recessed. The rocker is a stylish champagne colour, but the user has a total of six possible finishes to choose for the same product. In this sense, it is advisable to select a frame of the same baseboard colour as the rocker, to avoid breaking with the harmony appearance of the final set. The manufacturing material of the rocker is very good quality and consists of galvanized thermoplastic. The thermoplastic as of by it hardness and resistance to the product, but the rodapiés the process of galvanizing, i.e. the strengthen it with a coating of metal, this resistance is multiplied, guaranteeing a long service life of the product.
