Voice and data angled plate with dust cover for 1 AVAYA® RJ45 connector white Simon 27 Play

REF. **27081-35**

BASIC INFORMATION

DESCRIPTION

Combining in the most efficient way a design of neutral lines, which combines with modern, simple and functional environments, with a note of colour that always brand the difference is one of the features of the products included in the Simon 27 Play series. The Plate for voice and data tilted plate with dust cover for an RJ45 connector in white is the best example of this. It is a plate with dimensions of 45x45 mm and compatible with AVAYA connectors, for its installation it is necessary to use a universal flush-mounted box or, in its absence, a surface-mounted baseboard. Available in three finishes, this is a revolutionary concept that takes care of the detail and creates an ideal atmosphere in homes and companies thanks to all the details of its structure. With this plate you will be able to update, replace, replace and redecorate any room by having the possibility of installing interchangeable sleeves on the frame.

FINISH
