

Intermediate piece for 3 half elements luminescent Simon 27

REF. 27917-33

BASIC INFORMATION

DESCRIPTION

With a luminescent finish, visible in the dark, we present this intermediate piece for 3 half elements (or 1 element plus 1 half element) of the Simon 27 series. It is made of thermoplastic material and is suitable for installation through the system of flush-mounted. The installation can be carried out both horizontally and vertically. It has capacity for 2 and 3 half elements. This piece will give the frame an original touch of colour, in order to keep it in good condition over time, it is recommended to clean it with a soft cloth and slightly moistened in water with soap, avoiding the use of strong products that contain chlorine. Simon 27 stands out for efficiently combining a design of neutral lines, which fits in perfectly with modern, simple and functional. All the mechanisms of this series support Simon 27 Play appearance.
