Flush-mount American box for 3 half elements linkable for masonry partition wall

REF. **27710-31**

BASIC INFORMATION

DESCRIPTION

Recessed box, American style for three media elements, linkable for building partition masonry belonging to the series Simon 27 Centralizations, one of the best collections to centralize functions, making you have multiple functions in a single point, for command posts, work stations or many other applications for your home. Perfectly linkable for the control of electronic functions linked in a single point such as signalling and beacon/beacons, control and adjustment of lighting, blinds centralization, security and protection, temperature programming and warning systems. It has a capacity for 1,2 and 3 rows of up to eight modules per row. Installation suitable for flush mounting, reducing the time required to install the element. Manufactured with the best thermoplastic materials, thus isolating from very variable temperature ranges making it run at full performance without any problem and with any available orientation either vertical or horizontal.

FINISH

Black

COMPATIBILITY

Simon 27 Play mechanisms
