PVC trunking of 2m 90x55mm with 1 compartment for K45 functions in white color

REF. **TK12081/9**

BASIC INFORMATION

DESCRIPTION

PVC channel 2m long with a section of 90x55mm, featuring 1 front compartment capable of mounting all functions of the K45 range without the need for accessories, achieving significant savings in assembly time. Regardless of the designed structure, it ensures the electrical wiring is isolated from voice, data, and multimedia, as well as maintaining its correct bending radius throughout the distribution. It adapts to different architectures through its installation accessories, with the possibility of branching to MiniChannel and Cable Guide via the pre-punched line. Manufactured from high-quality PVC in RAL 9003 color, it has an IP4X protection rating. We are talking about a flame-retardant, self-extinguishing, and non-propagating material. The indicated price is per meter and is supplied in batches of 6 units (12 meters in total)
