

Adjustable cross-shaped connector

REF. 89941238-039

BASIC INFORMATION

DESCRIPTION

If we want to ensure that nothing fails at an electrical installation for the lighting in indoor we need to have a perfect connection between all the elements present in the indoor and outdoor of the same. Just as well, this gives the maximum security in our private homes, companies or commercial premises. The Cross-shaped connector adjustable of Simon is the best ally to achieve this objective. The black colour, with which it has been developed this element gives you a design very innovative thanks to its finish based on line avant-garde. Its installation, which can be carried out in a comfortable and simple way in just a few minutes without the need for professional knowledge, must be carried out on a 3-phase rail, another of its great advantages is its great relationship between quality and price, situation for which is unrivalled with other similar products.
