3RCA connector for half element ivory Simon 27 Play

REF. **2701093-031**

BASIC INFORMATION

DESCRIPTION

Half element 3RCA connector with ivory finish and available in the Simon 27 Play series, one of the collections with more availability in terms of connectors or mechanisms that you will not be able to find in other brands. In terms of customization is one of the most demanded, therefore, they have interchangeable sleeves and rockers for the different elements. To change the image of a room is as easy as clicking on the frame with any of the covers you have at your disposal, are organized in 4 ranges: Colour, arctic, metal and extreme. They also offer rockers covers to match the sleeves. The transparent sleeves and rockers are the ones that allow total customization because you can capture any image on the sleeves or rockers. In addition, the Simon 27 Play series allows you to choose the antibacterial system as an addition, effective against the transmission of bacteria when coming into contact with switches or plugs, ideal for public centers.
