

Single rocker for switches graphite Simon 75

REF. 75010-38

BASIC INFORMATION

DESCRIPTION

The Simon 75 series offers an range of options ideal for a decorative space. This is the key to your success. Thanks to the design of the multi-coloured insert, the rockers can be attached to the square cavity of the frames of 2,3 or 4 elements, which can be mounted vertically or horizontally. A good example of this is the individual Rocker for graphite control mechanisms, a valid piece for switch, 2-way switch, crossover and push-button switch made of thermosetting materials, being suitable for surface and flush mounting. Available in the colours snow white, ivory, grey, graphite, aluminium and bronze in the same frame will facilitate multiple combinations to form the ideal set that best adapts to the needs of each house or company. The Simon 75 series is a precise answer to the new market demands, offering numerous functions that provide comfort and security.
