

L connector with inside earth

REF. 89910630-039

BASIC INFORMATION

DESCRIPTION

In the form of L connector with LH indoor for 3-phase rail. The three-phase rails represent the system that offers greater comfort when it comes to transfer, increase or decrease the light points in the spaces where they are installed. For assembled these lanes of LEDs we find fittings such as these connectors in L. Specifically, this connector is of a white colour, so it is advisable to combine it with three-phase finished in the same tone. Not in vain, the three-phase rails of Simon are available in white, but not only in other colours such as aluminium and graphite. It doesn't matter which the rail is 1, 2 or 3 metres (the dimensions available), as this connector in the form of L ground indoor "of compose any diagram that you want to the user easily and effective.
