

Cover for wire outlet pull mechanisms grey Simon 75

REF. 75051-35

BASIC INFORMATION

DESCRIPTION

The Cover for cable outlet puller mechanisms is from the Simon 75 range, it stands out for its simple installation, by means of recessed or directly in surface-mounted. It is available in a stylish grey colour that will be perfect for rooms with similar aesthetic lines. Even so, it is necessary to highlight the product is range in a total of six different finishes, so that the user to choose the one you like best or adapts to the decorative appearance of the room where you go to locate. Therefore, it is recommended to choose a frame with the same baseboard colour as the rocker selected. The material of which it is the cover is thermoplastic, which extends the service life of the product. This is so because this material gives it a resistance and hardness extra the product, which ensures optimum operation even low temperatures ranging from -25 to + 50 degrees centigrade.
