Single rocker with viewer and light symbol aluminium Simon 73 Loft

REF. **73016-63**

BASIC INFORMATION

DESCRIPTION

The series Simon 73 Loft always offer an answer in the form of effective solutions with a great variety of rockers and covers where you choose. This has been the aim of this range since its creation. Here we can find the individual Rocker with viewer in aluminium finish, a 55x55 mm piece includes light engraving in an innovative design that allows you to recess the product or to place it on the surface-mounted depending on the space in which it is located the electrical installation. Available in three finishes in the same frame or rocker, being able to choose colour in these intermediate parts. It is also very easy to clean to that the part is as the first day and its structure stands out for its resistance thanks to the thermoplastic components with which it has been manufactured, being designed to withstand without deteriorating in environments with temperatures and percentages of high humidity.
