

Intermediate piece for 3 half elements snow white Simon 27

REF. 27900-33

BASIC INFORMATION

DESCRIPTION

The Simon 27 series offers products very versatile, with a design and a appearance according to its maximum functionality. This is the intermediate piece for three half elements in snow white finish, from the Simon 27 series, has three modules and is suitable for flush mounting, the temperature range that supports is variable, the recommendation goes through maximum temperatures between 5 to 40 degrees centigrade, but in reality it is that it can withstand much more extreme temperatures. This intermediate piece for frames Simon 27 is designed from materials with thermoplastic components, which support perfectly the heat and cold, optimising the security in its use. The quality is a priority in Simon products. For the installation of this piece, there are two possibilities, to choose a upright installation of the frames or do it horizontally, the mechanism is the same in both cases. Also, you will find it available with capacity for 2, 3 or 4 half elements. The cleaning of the parts pieces for frames is simple, you just need to use a cloth with soap and water.
