

Trim frame for 3 elements copper Simon 27

REF. 27964-33

BASIC INFORMATION

DESCRIPTION

This product is part of the Simon 27 series and consists of a trim frame designed for mechanisms that supplied energy to three elements. Measures 232 x 90 millimetres and consists of a total of six modules. Its installation is extremely simple, by recessing. Allows the user to do it in a horizontal or vertical position, depending on your preferences or the needs of the room where it is. The frame is presented in a stylish and sophisticated copper colour, which is integrate perfectly anywhere with style and appearance. Its manufacturing materials are highly resistant, thanks to the galvanized thermoplastic material used. This gives the frame much resistance to extreme temperatures, as they are very high or very low and ensures optimum operation even under these conditions. Its maintenance is also simple and is to use a very soft cloth slightly moistened with soap and water. It does not need of any cleaning product savings.
