Voice and data cover with dust cover for 1 matt black RJ45 connector Simon 100

REF. **10000005-238**

BASIC INFORMATION

DESCRIPTION

Designed for an RJ-45 connector, the Simon 100 series voice and data plate with dust cover in black quartz effect color gives a distinctive touch to rooms in homes or businesses in which it is used. its design facilitates the interaction between users because it is an intuitive, simple and comfortable covering, conceived to be used by means of a unit, it should therefore be built-in, its installation being very simple. It has great resistance to humidity and high temperatures thanks to the PMMA materials with a thermoplastic base with which it was developed. This plate is the first interface designed to be used by hand. The keys are always in the same position and their matrix structure is more intuitive and easier to remember than in products with similar functionality.

FINISH

Matt black

COMPATIBILITY

Mechanisms Simon 100

ETIM CLASS

EC000018

MATERIAL

Plastic

PACKAGING CONTENTS

Lid

TECHNICAL INFORMATION

AVAILABLE MARKET
CE
