Double rocker for blinds mechanism with security latching white Simon 82

REF. **82028-30**

BASIC INFORMATION

DESCRIPTION

Raising and lowering blinds no longer requires the effort of this action in the past thanks to the electronic systems that have been incorporated into these mechanisms in many homes and corporate headquarters. To perform a simple operation and user-friendly, we have the double Rocker for roller shutter mechanism with latching of security in white of the Simon 82 series, it has universal dimensions of 55x55 mm, being compatible with all the mechanisms included in the Simon 75 series, it is available in six finishes, which allows you to choose the frame with the same baseboard colour as the rocker selected, and its installation is suitable for surface and flush mounting, being carried out in minutes without previous knowledge. It also includes engraving of blinds up / down and has the best value for money that exists today in the sector of electrical systems for blinds.
