

Thermostable frame for 4 elements champagne Simon 31

REF. 31641-34

BASIC INFORMATION

DESCRIPTION

Frame designed in thermostable material of the Simon 31 series. This frame is suitable for a total of four elements and has a perfect finish in champagne colour; it is advisable to use frames and covers in the same finish, to give appearance to the product in your installation. It can withstand temperature intervals very ends, which reaches up to + 50 degrees centigrade of heat. The manufacturing material is thermoplastic with a metallic finish, very modern and safe, because it offers high resistance to high temperatures. It is available with capacities variables (one to four elements). With dimensions of 299 x 87 millimetres these frames, of the Simon 31 series, advocate by the versatility, since it can be installed both horizontally and vertically, without losing an inch of functionality. For a correct maintenance of the frames Simon and increased, as such, its service life, it is recommended to them with a soft cotton, very cloth, moistened with soap and water.
