

Interchangeable case for 2 elements frame stainless steel Simon 27 Play

REF. 2700627-042

BASIC INFORMATION

DESCRIPTION

The Simon 27 Play series has among the products in this range, the interchangeable cover for frame of 2 elements finished in stainless steel, suitable for both surface and flush mounting, it is recommended to combine with rockers and covers in graphite colour, this piece stands out for its high resistance to knocks and scratches, a quality it has thanks to the galvanized thermoplastic materials with which it has been manufactured, and is perfect for environments with extreme temperatures. Its universal dimensions of 86x164 mm allow two directions of assembly, depending on whether the plate is placed horizontally or vertically. Once again, Simon offers its customers the simplest solutions to decorate any room, at the same time that designs products with great performance. The interchangeable sleeves for frames of the Simon 27 Play series are a simple and very useful tool to give a touch of colour to a room.
