

Front face kit for 1 element with 1 computer connector RJ45 category 6 UTP with gloss black adapter Simon 100

REF. 10020106-138

BASIC INFORMATION

DESCRIPTION

With a rectangular design and the elegance of avant-garde black finishes, the Simon 100 collection is converted into a new concept of traditional, yet smart switch. This front panel kit for 1 element of the Simon 100 is designed to optimize functionality, including in a compact computer connector 1 space RJ45 category 6 UTP with adapter. Suitable for recessed installations, the front face kit for Simon 100 allows quick and easy assembly by insertion, without the need to strip the wire, which makes the process compatible with all products in this range. In addition, it is compatible with a power of 250 Volts. voltage and has a temperature range of 5 to 40 °C and can reach maximum temperatures from -25 °C to 50 °C. Innovation and functionality, design and smart switches go hand in hand in this new Simon 100 collection to achieve a maximum quality in all aspects of its electrical system.
