REF. 05032-30

BASIC INFORMATION

DESCRIPTION

Giving solutions to the problems that currently exist in the elements that make up the electrical and electronic systems is the objective with which Simon 27 Play series was born, an objective that has been fulfilled thanks to its wide range of products included in this range, the Plate for digital control of a trunking with broadcast, message reception, 3.5 mm jack input and output in white is a good example of this. Suitable for surface and flush mounting, it consists of two modules with thermoplastic components that are easy to clean for maintenance over time, it is a plate with dimensions of 45x45 mm that is available in three finishes, so it is recommended to choose a frame with the same colour of the plate chosen. It also includes headphone recording, external music source, listener reception function and broadcast function.
