

Fuse-holder base for cylindrical fuses 16A 380V~ size 8x32 mm champagne Simon 31

REF. 31001-34

BASIC INFORMATION

DESCRIPTION

This fuse holder socket is ideal as an element cable and distributor. It is part of the Simon 31 series and is designed for cylindrical fuses of dimensions of 8 x 32 millimetres and with a current of up to 16 A of current and 380 volts. The dimensions of this socket are 64 x 65 millimetres and stands out for its simple system with screw terminal connection. Simon adapts to the times and conceiving its products not only as elements with a particular purpose, but are converted to multifunctional and versatile. In this sense, Simon products go to be also decorative elements of the rooms where it is located, hence the wide range of colors and possible combinations. In this case, this fuse holder socket is presented in a beautiful, original and stylish colour champagne finish, but this same product is available in three different finishes, so it is recommended to choose frames with the same baseboard colour as the rocker selected to achieve a perfect harmony appearance of the final set. The socket is made of metal components with halogen-free insulation and thermoplastic trim.

FINISH

Champagne

COMPATIBILITY

Simon 31 frames

ETIM CLASS

EC000011
