

Interchangeable case for 3 half elements American frame transparent Simon 27 Play

REF. 2700653-108

BASIC INFORMATION

DESCRIPTION

Simon has always been known for providing its customers with quality products that offer innovative solutions to optimize the decoration of electrical systems anywhere. The interchangeable cover for American frame of 3 media elements with transparent finish, so it is recommended to combine it with rockers and covers of the same colour, it is one of the most complete elements that we can find in the catalog of the Simon 27 Play range. It is a piece that stands out for its competitive price, which makes it affordable to all types of budgets, and for its functionality, which allows the decoration of different rooms in private homes or various office departments. It features the standard dimensions 86x125 mm. It is also very easy to install and is manufactured from thermoplastic material of high thermal resistance and the best quality.
