Frame for 2 elements wood Simon 75

REF. **75620-34**

BASIC INFORMATION

DESCRIPTION

This is a frame for 2 elements Simon 75 wood, a series that stands out for the colour, since this allows infinite combinations between the 13 different finishes in frames, 15 colors of the parts pieces and 6 different colours that we find in the rockers. Frame 88x159 mm, made of thermoplastic with an excellent wood finish, suitable for surface and flush mounting in all types of spaces. Its rectangular design allows its placement in two different shapes, both horizontally and vertically. For a better conservation, it is recommended to clean it with a cloth slightly moistened in soapy water and avoid using chlorine-containing products, the Simon 75 series is compatible with the innovative mechanisms of Simon 77, which allows us to save time and money in the installation of this high frame. Simon is synonymous with quality and design for over 100 years.

FINISH

Wood

MATERIAL

Thermostable

COMPATIBILITY
