

Blind cover decorative brown Simon 31

REF. 31800-36

BASIC INFORMATION

DESCRIPTION

With dimensions of 64x65 mm, one of the most original products in the series 31 of Simon is the blind Cover in brown finish, a piece that stands out for the quality of the thermoplastic composite materials with which it has been manufactured. For its installation, which can be carried out in minutes, it is necessary to use a universal flush mounted box or, in its absence, a baseboard surface-mounted. This blind cover is available in five finishes, situation for which it is recommended to choose a frame with the same colour as the selected cover. Moreover, its low price makes it a perfect element to perform installations with all kinds of budgets. For years, these are some of the features that have made Simon the leader in the industry in the creation of elements for electrical and electronic systems.
