

French socket outlet 16A 250V~ with screw terminal connection system Simon 73

REF. 73458-39

BASIC INFORMATION

DESCRIPTION

The maximum adaptability and the maximum versatility come together in this Simon series, the Simon 73 Loft series, designed to installations of trunking and surface-mounted. All the products in this series facilitate a quick assembly and secure installation, in addition to the corresponding appearance that Simon always takes care of. And, of course, a wide range of functions of all kinds to surface-mounted. This French socket outlet, which has a resistance to elements of up to 16 Amps and 250 Volts, with screw terminal connection and always, the covers include the child protection function, an extra security against tampering of children and that will bring the peace of mind that you need when your children are moved freely by the rooms of your home. The wire cross-section is 2.5 millimetres, something which must be taken into account before purchasing the product (stripping of wire 15 millimetres). In its manufacture are tapped the best metal components with thermoplastic insulation and halogen-free.
