BASIC INFORMATION

DESCRIPTION

Get now with the interchangeable black colour for a frame for two elements of the Simon 27 Play series, one of the most customizable of Simon, without a doubt, thanks to the option of including the image you want in its different elements makes it unique to create the different elements. The Simon 27 Play transparent covers and rockers allow the customization of the piece to be complete, just select the image you want and you will have it captured in the selected item. In addition, the Simon 27 Play series completes the total comfort of your home with the best solutions for any space in the house, being effective against bacteria thanks to a built-in system in switches and antibacterial plugs, ideal for installing in health centres, hospitals or nurseries apart from your home. It also increases the duration of Simon elements with the IP44 sealing option that protects your elements from water and dust, making them less vulnerable.
