BASIC INFORMATION

DESCRIPTION

Simon offers frames in 13 finishes, rockers in 6 colors and parts pieces in 15 different finishes. This is the Simon 75 series, the series of colour, multiple combinations for all tastes and environments. Also has a rectangular design that allows the installation in two different aesthetic positions. This is a frame for 4 elements with an ivory finish, which is suitable for surface and flush mounting. The thermoplastic, due to its durability and resistance is the material chosen for its manufacture. The dimensions of this frame are 80x301 millimetres. Simon has many years being a benchmark worldwide in the low voltage electrical equipment. This time it offers us a series that allows us to decorate any space to our taste, the possibilities that we have are practically unlimited thanks to the great variety of colors that we have. Also, this series is compatible with the Simon 77 mechanisms.
