PVC trunking of 2m 185x55mm with 3 compartments for K45 functions in white color

REF. **TK12143/9**

BASIC INFORMATION

DESCRIPTION

PVC channel of 2m length and a section of 185x55mm, with 3 front compartments capable of mounting all functions of the K45 range without the need for accessories, achieving significant time savings in assembly. Regardless of the designed structure, it ensures the isolation of electrical wiring from voice, data, and multimedia, in addition to maintaining its correct bending radius throughout the distribution. It adapts to different architectures through its installation accessories, with the possibility of branching to Minichannel and Cable Guide through the pre-punched line. Manufactured in high-quality PVC color RAL 9003, it is provided with a protection degree of IP4X. We are talking about a fireproof, self-extinguishing, and flame non-propagating material. The indicated price is per meter and is supplied in batches of 3 units (6 meters in total)
