Plate for electronic rotary mechanisms cold aluminium Simon 82 Detail

REF. **82054-93**

BASIC INFORMATION

DESCRIPTION

The Simon 82 Detail series offers you a plate for rotating electronic devices with cold aluminium finish belonging to the category ""rockers and covers ". The plate in this case belongs to the Original range of the two existing in the Simon 82 Detail collection. This Original range stands out for the combination of shapes and materials, this gives the set of elements an identity of its own, generating outstanding colour details in any space of the dwelling. Benefit from a collection inspired by everything we cannot see, but that can change your conception of things. Highlighting the details as one of the main factors. You will have available six different finishes, it is recommended to choose a frame with the same baseboard colour as the selected rocker. It is suitable for surface mounting or flush mounting, so you can choose the method that best suits the needs of your home.
