

Frame for 1 element for trunking white Simon 75

REF. 75611-30

BASIC INFORMATION

DESCRIPTION

The Simon 75, in its finished in white, that the simplicity never is not at odds with the design. It is a model that adapts to the space in which it is set. Composed by an element for channels, white, and with capacity for up to two elements, requires parts pieces. Measures 80x80 mm. It is manufactured in thermoplastic, which gives resistance. Their assembly, you can perform in surface-mounted or adapting to any universal recessed box, with a great adaptability to the spaces. For your care, we must use a cloth moistened in soapy water, without cleaners that may damage.
