Frame, 1 half element with frame holder for American box white Simon 27 Play

REF. **2700611-030**

BASIC INFORMATION

DESCRIPTION

This frame, designed for mechanisms of a half an element, it is part of the Simon 27 Play range. Comes with frame-holder for American box. It measures 123 x 85 millimetres and can be installed both vertically and horizontally, so that stands out for its versatility. The product is presented in a beautiful white colour that will be perfect for rooms of style classic or where you want to which the mechanism will go unnoticed to view, fully integrate in the place. So to achieve this appearance, it is necessary to combine with rockers and covers of the same colour bank and similar features. The frame is made of thermoset material and the frame-holder is metal. It is a product that resists ben very high or very low temperatures of between -25 to + 50 degrees without due to its operation. Its maintenance is very simple and is just in passing a soft cloth moistened in water and soap.
