

2 W 16 Ohms speaker for universal box installation

REF. 05562-39

BASIC INFORMATION

DESCRIPTION

The Simon Sound system allows you to listen to radio, music or messages throughout different rooms, offering a wide range of possibilities and functionalities. It is ideal for large installations and infrastructures, but perfectly suitable for any type of home or workplace. You can configure different intercom zones both at home and in your business.

Furthermore, this system features an avant-garde aesthetic, updated to modern times and compatible with Simon home automation systems. But for maximum sound quality in this type of installation, it is essential to have good speakers. The best example is the 2 W 16 Ohms speaker for universal box installation, which offers the top performance of this sound series launched by Simon. Manufactured with the best materials to ensure they do not deteriorate or break. The best stereo sound by Simon.
