BASIC INFORMATION

DESCRIPTION

Designed for one element and one or two RJ45 connectors, this plate of voice and data flat plate, it is part of the Simon 500 Cima series. The piece has no dust shutter and it is suitable to be used with components from other manufacturers. Its design finished in aluminium provides versatility and sophistication in environments chosen for the installation. These plates are ideal to be used in working environments, you need to connect several elements of voice and data. This is the individual version of a module if you want to incorporate the plate Simon 500 Cima, aluminium, to any enclosure vertically or horizontally, the clips for this are included in the kit. The dimensions of the product are of 50 x 50 mm and 11 mm of depth. The manufacturing materials provide quality and security, thanks to the components isolated with halogen-free thermoplastic, which does not propagate the fires. Easy maintenance, it is not recommended to use abrasive cleaners that contain chlorine.
