

Thermostable frame for 1 element champagne Simon 31

REF. 31611-34

BASIC INFORMATION

DESCRIPTION

This beautiful frame of the Simon 31 series is ideal for mechanisms that supplied energy to a element has dimensions of 87 x 87 millimetres and stands out for its easy installation, in addition, it is a product that is very versatile and can be installed both horizontally and vertically. The frames of the range Simon 31 stand out for its functionality and appearance. In this sense, Simon has a great variety of frames of different sizes and properties, but also of different colors. In this range, the brand includes colours, very new and modern to be adapted to modern times. This frame is presented in a beautiful champagne colour, metallised, so it is recommended to combine it with rockers and covers of the same colour. The colour champagne will give a touch of elegance and sophistication to any room in which it is installed, in addition to a great originality. In this way, Simon is committed to the decoration integrated in its products, but, in addition, the components that are made these frames are highly resistant. The thermoplastic is the most characteristic feature, which extends the service life of the product and allows you to work optimally low temperatures very high or very low.
