

Frame for 1 element with square central opening white Simon 32

REF. 32610-31

BASIC INFORMATION

DESCRIPTION

It is a frame in white colour designed for 1 element, which consists of opening control unit, square. This article is made in Bakelite, a type of plastic very resistant against knocks, scratches and good qualities. It is part of the series Simon 32, a collection that makes the simplicity of its main standard. Among its mechanisms we find parts classic suitable to meet the needs the most common. The items in this series comply with good note its purpose in the installations. Specifically, this frame measures 80x80 mm and can be installed both vertically and horizontally. It is a product basic, but at the same time is an essential. Very important in this type of articles is to give you a proper maintenance to prolong its service life. This, it is recommended to use a soft cloth and slightly moistened in water with soap, avoiding chlorine-containing cleaners.
