

Plate for electronic rotary mechanisms white Simon 28

REF. 28054-30

BASIC INFORMATION

DESCRIPTION

This plate is specially designed for electronic rotary type and is of the series Simon 28. It comes in a white classic colour that will make it perfect in any room of the home, office or premises where it is, harmonizing with the predominant appearance. It is installed by means of recessed or directly in surface-mounted, in a very simple way. Also, ensures optimum operation even low temperatures ranging from -25 to 50 degrees centigrade. This is possible thanks to the thermoset material of which it is made, which also gives it a hard extra that will against challenges external as possible knocks or scratches. Its maintenance is extremely simple and to do so you only need to use a cloth slightly dampened with soap and water. It is not necessary to or use additional chemical products of cleaning, it may even damage the product, especially if they are abrasive and contain chlorine.
