

Interchangeable case for 4 elements frame black & white

Simon 27 Play

REF. 2700647-802

BASIC INFORMATION

DESCRIPTION

Providing the most practical solutions to electrical installations that require the integration and coordination of several elements in the smallest possible space in all types of situations is the aim of the Simon 27 Play series, here we find the interchangeable cover for frame for 4 elements finished in black & white, a piece that has a discreet and functional dimensions of 86x306 mm, being suitable for flush mounting, both in an installation in a vertical and horizontal. This interchangeable cover for frame of eight modules has been manufactured in thermoplastic material painted with high thermal resistance, on the other hand, this product is also available for 1, 2, 3 and 4 elements, in addition, Simon recommended to combine this piece with rockers and covers in graphite colour, like all products of the Simon 27 Play series has the best performance at the most competitive price in the market.
