IP66 watertight raised floor box kit with 2 schuko socket outlets + 1 narrow blind cover and sheath

REF. **KGH210RF/74**

BASIC INFORMATION

DESCRIPTION

Simon completely renovates its range of watertight floor boxes for indoor and outdoor environments. This is a kit that includes the manual closure mechanism frame with 2 schuko sockets and 1 K45 blind plate of 22.5x45mm, designed to integrate into the included base for installation in raised flooring with cutting dimensions of 174 x 125 mm. The product design, combined with its stainless steel mechanism frame, ensures a robust, solid, and safe installation as it can withstand a water jet of 1 kg/cm^2 from any direction, achieving an IP66 protection rating when the cover is closed. It also supports a maximum load of 1500 kg and has an IK08 impact resistance. It maintains an optimal bending radius of wiring in high-category voice and data connections. Our accessory for plug connection with the cover closed is available, so we can keep our connections active with an IP54 (see reference KFA1001), the possibility to level our box in case of irregular flooring (see reference KFA1003), or the ability to chain multiple boxes together (see reference KFA1002).
