Cover for inductive sockets R / TV + SAT matt white Simon 100

REF. **10000053-230**

BASIC INFORMATION

DESCRIPTION

All the products that make up the Simon 100 series give a distinctive touch to rooms and apartments of the houses or businesses in which they are used. In addition, its multiple designs increase the decorative possibilities of each one. Designed for R-TV + SAT format connectors, the cover for inductive mechanism with white quartz effect finish from the Simon 100 series is one of the references of this range. Its functionality and safety in the event of small accidents make it one of the most requested covers for installation in large public and private buildings. Its characteristics are as follows: medium element, type of installation that can be recessed, IO relative humidity of 95% RH (without dew), resistance to high and low temperatures, in accordance with regulations, PMMA materials manufactured with thermoplastic sleeve, easy cleaning and maintenance with a damp cloth.

FINISH
