Front kit for 1 element with 1 German socket outlet and built-in USB charger with smartcharge matt white Simon 100

REF. **10020109-230**

BASIC INFORMATION

DESCRIPTION

Front kit designed to occupy 1 element that has 2 RJ45 connectors made of matte white and is part of the Simon 100 series. It is a standard product designed to be sold within the EC.

Its emborning is screw-based. It has a voltage of 250V, and the type of activation is by insertion.

This kit should have a temperature range for storage from -25º C and 50º C and a range for the temperature of its operation from 5º C to 40º C. Cleaning should be done with a cloth dampened slightly in soapy water, without using cloths and/or rough cleaners containing chlorine, to maintain surface durability.

This device can be placed both vertically and horizontally. In its box you will find the mechanism, a USB charger and instruction manual to further facilitate its installation.
