

Back kit for 2 elements with 1 two-way push-button switch, 1 USB charger and 1 Schuko socket outlet Simon 100

REF. 10010206-039

BASIC INFORMATION

DESCRIPTION

This kit rear is part of the Simon 100 series and is designed as lighting point for two electrical elements of up to 16 A and 250 volts. On this occasion, the back kit is 2-way switch with a push button, a socket outlet base and a USB charger, so that stands out for its versatility and high functionality. The 2-way switch push button is ideal to allow the switching on the light from two different places, something common, for example, in bedrooms where it is located a system of switching on to the input of the room and other together with the headboard to increase the comfort of the user. It has a click terminal system, in the case of the plug and the 2-way switch, and screw for the USB. The operation is also very simple, consisting of a tilting push-button switch that facilitates interaction.

COMPATIBILITY

Front Kit Simon 100

ETIM CLASS

EC002846
